

Plant Ahead Ohio (PAO) & Ohio Division of Forestry

Present

Trees and Earth Care

2020 Workshop Series

Via Zoom, Thursdays

7:00 pm to 9:00 pm

(ISA CEUs)

September 3 - **Tree Selection:** *Selecting the most appropriate trees: When the analysis of the needed functions, tree-planting sites, users and rights is done, the moment has come to make concrete proposals of tree species. The checklist of ideal tree characteristics can then be used to match the selected tree as closely as possible to the locations and functions identified.*

Presenter: Ann Bonner, SE Ohio Regional Urban Forester, Division of Forestry

Suggested Resources

Landscape Plants for Eastern North America: Harrison L. Flint new \$107/used \$19 +/- [Click here for link](#)

Landscape Tree Factsheets: \$30 <https://extension.psu.edu/landscape-tree-factsheets>

Casey Trees Urban Tree Selection Guide: PDF [Click here for link](#)

The Tree Book: Superior Selections for Landscapes, Streetscapes, and Gardens: Michael A. Dirr & Keith S. Warren, \$42 [Click here for link](#)

Essential Native Trees and Shrubs for the Eastern United States: The Guide to Creating a Sustainable Landscape: Tony Dove \$25 [Click here for link](#)

September 17 - **Twigs to Trees** (Vacant Lots Projects): *An innovative presentation on repurposing vacant lots in our communities. Goals are to enhance community tree canopy, provide opportunities for urban food sources, and expand the urban and community forest. Of course, it increases many other environmental, economic, and sociological benefits too.*

Presenter: Wendi Van Buren, SW Ohio Regional Urban Forester, Division of Forestry

October 1 - **What's Messing with My Urban Plants** - Part 1: *This fun and creative presentation will help you gain a better understanding of plant diseases, insects, weeds, and environmental issues that threaten the green world around us.*

Presenter: Jim Chatfield, Ohio State Extension Education, NE District OARDC, Wooster, OH
